

## DEFENSE TRAVEL MANAGEMENT OFFICE

# Fixing Compatibility View Settings for DTS

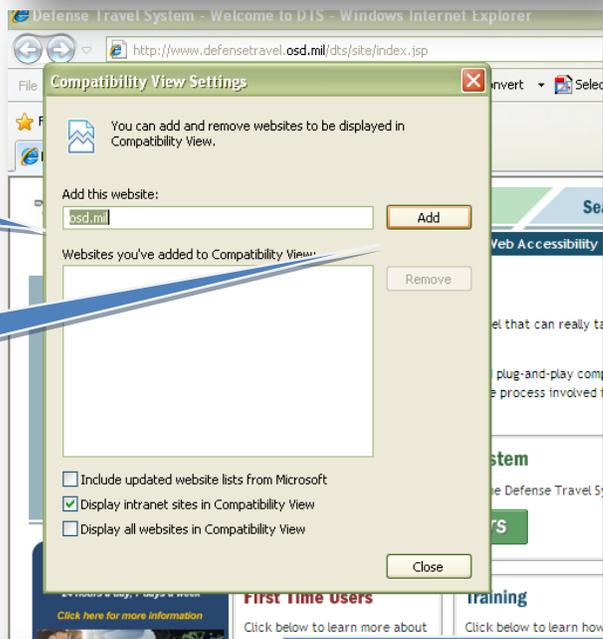

## I. Steps

1. Open an Internet Explorer browser window
2. From the top menu bar, select Tools>Compatibility View Settings

3. Enter "osd.mil" in the "Add this website" text box

4. Select the "Add" button, then close the text box

If using Internet Explorer 9 and "Compatibility View Settings" is not listed under the "Tools" menu (when accessing it from the DTS login page), click the button next that looks like a ripped piece of paper.
