DTS Software Update

Implemented on 8/1

I. DTS Software Update

The software update implemented on August 1, 2011 resolved the following system problem reports:

- DTSP-6257: "POUNDING" on the remove link many times while the page is loading could cause unintentional deleting of documents below it.
- DTSP-6241: User is unable to modify per diem lodging costs to \$0 unless 'Actual Lodging' is selected.
- DTSP-6131: Security issue - Incorrect credit card and/or ticketing PCC in PNR
