Current and Upcoming Overseas Cost of Living Allowance Adjustments

(as of 6/5/2018)

An increase indicates that price differences have increased from being that much more expensive in comparison to average prices in the Continental United States (CONUS). A decrease in this allowance indicates that the prices of goods and services have declined in comparison. Overseas COLA is not a fixed amount and adjustments based on data are either immediate or made incrementally, depending on whether the payment will increase or decrease. Increases in COLA are made immediately, whereas COLA reductions are phased in over time to help minimize the impact of the adjustment. Please refer to Table 1 for the COLA index point adjustment by duty station location.

Service members can calculate their COLA rate at <http://www.defensetravel.dod.mil/site/colaCalc.cfm>. The calculation tool is updated with the current COLA amounts each pay-period.
