

Software Update Information

FY20 Release 1

** Note: Information and dates provided below are subject to change without notice. Information will be updated as necessary.*

I. GENERAL SOFTWARE UPDATE INFORMATION

- **EWTS Release Date:** October 30, 2019
- **DTS Release Date:** This release is scheduled to be implemented in a phased approach across DoD organizations. On November 7, 2019, the release will be implemented for randomly selected DoD organizations to allow software engineers to assess system performance. If your organization is part of the pilot, users will see an on screen banner once logged into DTS. Following a successful verification, the release will be implemented across all remaining DoD organizations, which is tentatively scheduled for November 15, 2019. Please continue to monitor the DTS homepage for any updates to the release schedule.
- **System Downtime:** None
- **TAC Outreach Call:** Tuesday, November 12, 2019. For instructions on how to participate in this call or for a copy of the slides, see the TAC Outreach Call announcement in the Announcements section of Travel Explorer (TraX) (www.defensetravel.dod.mil/passport).

II. SUMMARY OF FUNCTIONALITY (As of November 5, 2019)

- This release is the next in a series of updates to the User Experience (UX)/User Interface (UI) that aims to modernize the look and feel, and improve navigation and usability of the system. This release introduces the Google Maps functionality to the lodging reservation process, providing the user with a graphical display of hotel locations in relation to the location they searched.
 - A complete description of this functionality, including screenshots, is available through the following Look Ahead paper: https://www.defensetravel.dod.mil/Docs/Look_Ahead_IP_12.pdf
- Numerous SPRs will be resolved with this release. (See table in section III)
