1 Group Authorizations

To save time when two or more people travel together to the same TDY location, you can create a single document, a group authorization, to capture travel details common to all group travelers. Later, DTS splits the group authorization into individual authorizations, allowing each traveler to enter details unique to their own trip. After travel, each traveler creates and submits a voucher to claim reimbursement for the expenses they incurred and payment for the allowances they earned.

To create a group authorization, you must have group access to all travelers in the group. The person who creates a group authorization in DTS is the Primary Traveler if they will travel with the group, although a travel clerk, Non-DTS Entry Agent (NDEA) or DTA can also create a group authorization.

Note: The Primary Traveler’s organizational routing list and Lines of Accounting (LOAs) drives the document processing.

Note: In this guide, “you” are assumed to be the Primary Traveler, travel clerk, or NDEA. This guide skips some of the steps common to all authorizations, as they appear in full in DTS Guide 2: Authorizations.

1.1 Group Authorization Process Overview

Your local business rules determine some of the specifics, but the general group authorization process is:

1. You create the document by entering the itinerary, reservation preferences, expenses and allowances, etc. in much the same way you would create any authorization. However, with a group authorization, you must also:

   a. Identify the group travelers.

   b. Email the reservation requests to the Travel Management Company (TMC, which DTS sometimes refers to as the Commercial Travel Office [CTO]).

      Note: Your local business rules may require a Transportation Officer (TO) to make transportation arrangements for groups of 10 or more travelers.

   c. Enter the transportation costs into the Other Expenses section in DTS, once you receive the information from the TMC or TO.
d. Distribute all shared expense costs between the group’s travelers.

3. After you sign the group authorization, DTS routes it to the Authorizing Official (AO) for approval. After the AO approves it, DTS creates a copy of the group authorization (known as an *individual authorization*) for each traveler. Individual authorizations are view-only for the travelers at this point.

4. Should you need to amend the group authorization, when the AO approves the amendment, DTS reflects the changes in the individual authorizations (which are still view only at this point).

5. When the group authorization is locked (either by you or DTS – see Section 3.3), DTS makes the individual authorizations editable, so travelers can update their own authorizations and create vouchers. After locking, the group authorization is permanently non-editable.

You can see this process visually in Figure 5-1.

---

**Figure 5-1: Group Authorization Process Flow**

---

This document is controlled and maintained on the https://www.defensetravel.dod.mil website. Printed copies may be obsolete. Please check revision currency on the web prior to use.
2 Create a Group Authorization

The steps to create a group authorization are similar as those used to create a typical traveler authorization. This guide covers the unique processing for group travel. For more information on creating authorizations in DTS, especially those parts not covered in detail in this guide, see DTS Guide 2: Authorizations.

2.1 Create Itinerary

To create a group authorization, begin on the DTS Dashboard screen, My Travel Documents section, select Create New Document, and then select Group Authorization (Figure 5-2). The Create Group Itinerary screen (Figure 5-3) opens.

Figure 5-2: DTS User Welcome Screen
Note: If the traveler has not logged into DTS in the past 60 days, you may receive a Review and Update Profile message (Figure 5-4) prompting you to verify the profile before DTS will allow you to enter information on the Create Group Itinerary screen. Select Continue without Updating, if you have no profile changes. For information on how to update a profile within an authorization, see DTS Guide 2: Authorization.
Beginning at the top of the page, enter the trip information for the group itinerary.

1. Under the **GROUP TDY LOCATION(S)** section (Figure 5-3, Indicator 1), identify the travel dates, TDY location, travel mode, and select a rental car (at the TDY location), if necessary.

2. The section **GROUP TRIP OVERVIEW** (Figure 5-3, Indicator 2) displays data a little differently than a traveler authorization, but still contains the basic travel material. Complete and move to the next section.

3. The **GROUP TRIP DETAILS** (Figure 5-3, Indicator 3) section contains three required and one optional field:
   
   a. **Type**: Select **Temporary Duty Travel (Routine)** or **Invitational Travel**.
   
   b. **Purpose**: Select one of the five trip purposes.
   
   c. **Description (Optional)**: Follow your local policy for this field.
   
   d. **Are You Attending a Conference or Event?**: Select **Yes** or **No**. If **Yes**, choose **Conference** or **Event** or select **Other**, otherwise select **No**.

4. Select **Continue**.

5. DTS displays a **Processing your request** message (Figure 5-5).
2.2 Add Group Travelers

Once the itinerary saves, the Add Group Travelers screen (Figure 5-6) opens. On this screen you can select the group travelers, provided they are members of a group to which a Defense Travel Administrator (DTA) has granted you group access. For more information on how groups and group access work, see DTA Manual, Chapter 6.

The page displays Total Travelers, the Primary Traveler, GTCC status (valid checkmark or non-valid X), EFT Account (Checking or Savings), and Routing List.

Note: The Progress Bar is now active on the left side of the page (Figure 5-6, Indicator 1).
Specific to group travel is the **Manage Travelers** feature. There are three options to add the travelers to the trip (Figure 5-6, Indicator 2).

1. Select **Manage Travelers** and the **Manage Travelers** window opens (Figure 5-7, Indicator 1).

![Figure 5-7: Manage Travelers Screen](image)

2. Select **Search By**:
   - **Name**: (Last and First) with the option to include all or part of the name.
     - Select the search method **(Name)**, then select **Search** (Figure 5-7, Indicator 2), the traveler’s information displays.
     - Select the plus sign on the right side of the traveler entry to add the individual (Figure 5-8, Indicator 1).
     - Add all the travelers, then select **Save** (Figure 5-8, Indicator 2).
SSN (Social Security Number): This option may be helpful searching when travelers have the same first and last names.

Travel Team: These people frequently travel together and you can select them for the trip. You can use a Travel Team already established or create a new Travel Team.

- Previously established Travel Team:
  - Select Travel Team under Search By. The list of teams appear in a drop-down menu, select your Travel Team from the list (Figure 5-9). The group listing of travelers appears (Figure 5-10).
3. DTS displays a **Processing your request** message (Figure 5-11).

4. The **Add Group Travelers** screen updates, lists the travelers, and changes the **Total Travelers** (Figure 5-12, Indicator 1). **Note:** DTS marks the Primary Traveler with a star (Figure 5-12, Indicator 2).
Note: When creating the group authorization it is important that all the travelers have like methods of reimbursement. Travelers with a valid GTCC used for making reservation preferences should be together and those travelers without a valid GTCC, you should process their group authorization separately.

5. If you need to remove someone from the group authorization, the process is easy. Select the box by the traveler name (Figure 5-13, Indicator 1).

A banner appears at the bottom of the page. Select Remove (Figure 5-13, Indicator 2).
A **Remove Travelers** confirmation message displays (Figure 5-14). Select **Confirm**. The travelers are no longer on the group authorization.

6. You can create a **Travel Team** (listing) for this trip or for future group travel (Figure 5-15). You can easily add and remove travelers to the team list following the steps below, or you can skip this section, going directly to #8 to complete (adding) **Group Travelers**.

**Create Travel Team:** Under the **Traveler Summary** section, you can select a different **Primary Traveler**, identify another **Routing List**, and add travelers to a new **Travel Team**.
Select Create Travel Team. A window opens (Figure 5-16).
Select the travelers currently on the document.
Name the team.
Select Create Travel Team to save.

7. The Travel Team success notification will appear under the Traveler Summary section (Figure 5-17, Indicator 1). Note: You must have group access to view the information.
8. Select **Continue** at the bottom of the page (Figure 5-17, Indicator 2). DTS displays a **Processing your request** message.

**Note:** If you don’t know all the participants, you can enter a number for a traveler as a **temporary placeholder** on the **Manage Travelers** screen see Figure 5-7. Enter the number, select the + (plus sign) and select **Save**. The **Traveler Summary** will reflect that entry as **Undefined Traveler**. You do not have to identify all travelers by name before you proceed with creating the group authorization. However, you must identify all travelers in the group, enter and distribute all costs before the AO may approve the group authorization.
2.3 Reservation Module > Air Reservations

Requesting air reservations follows generally the same process as in a typical authorization, with the following exceptions:

- Your local business rules may require a Transportation Officer (TO) to make transportation arrangements if your group contains 10 or more travelers. If so, skip the entire transportation reservations process. The Transportation Officer (TO) will make the transportation arrangements and give you the costs to enter into DTS under Expenses and Other Expenses section. Your organization may have a routing list that includes a TO review. If so, select that routing list before you sign the group authorization. For more about routing lists, see DTA Manual, Chapter 5, Section 5.6.2.3.

- When you select flight reservations, you’re only identifying flight preferences for the TMC to assist you. You are not actually booking flights or reserving seats at this point. The TMC will work the reservation request, though the TMC may have to select a different flight to get enough seats for all the group travelers.

Here is how to request group travel flights in DTS:

1. Based upon information you entered on the itinerary, DTS automatically searches for appropriate flights and displays the lowest (policy based) results on the Select a Fight page (Figure 5-18).
2. Use **Select Flight** (Figure 5-18, Indicator 1) to choose a departure flight preference.

3. DTS searches and brings back a list of return flights. Use **Select Flight** to choose a return flight preference.

4. Once you select all your flights, DTS displays a **Processing your request** message.
Note: The displayed flight cost (or cost you enter under Other Expenses section) is the total estimated cost for all travelers, not the cost per single traveler.

Example: The group contains three travelers. After submitting the travel preferences to the TMC, the TMC returns a flight cost of $1,500. The tickets therefore cost $500 per traveler. You enter the total cost. Later, you will distribute the cost among the travelers. To view flight cost, see Review Reservations.

Note: DTS does not prompt you to enter Secure Flight Passenger Data traveler information for a group authorization. However, the airlines require certain traveler data in order to book and ticket flights. When providing the Secure Flight Passenger Data and GTCC information to your servicing TMC or TO, be sure to follow your local business rules and TMC processes for data transmission.

2.4 Reservation Module > All Other Reservation Types

If you indicated the group needs a rental car, then DTS displays a Select a Rental Car page (Figure 5-19). DTS provides a list of rental cars with the lowest cost (Recommended) car displaying at the top of the screen.

Note: You may need to use the Advanced Options drop-down menu to change the Vehicle Type to accommodate the number of group travelers (Figure 5-19, Indicator 1) and then select Search (Figure 5-19, Indicator 2).

1. Review and then Select Car (Figure 5-19, Indicator 3). Note: Later, you will distribute the rental car cost to the appropriate traveler.
DTS proceeds to the lodging reservations section, after selecting the rental car. To search lodging preferences, the Select Your Lodging page opens (Figure 5-20). The Allowed amount (for lodging) displays next to Available Options. DTS displays the list of lodging facilities.

1. **Review the lodging options.**

2. **Select Lodging.**

   **Note:** If the TO or you make lodging reservations offline, then you will need to update the lodging cost under Per Diem.
3. The room options display.

4. Review the options and then Select Room (Figure 5-21).

The costs DTS displays or what you must enter under Per Diem are the totals for all travelers, not per individual traveler. Example: The group contains five travelers who need lodging for 5 nights each. DTS displays a total lodging cost of $2,350.00. The hotel will therefore cost $94.00 per traveler per night.
2.5 Review Reservations

The Progress Bar tracks your reservation selection advancement and then DTS brings you to Review Reservations listing the selected flights, rental car, lodging preferences, and total group cost for each (Figure 5-22).

1. Starting at the top of the page, review the reservation information.

2. Once you complete the review, select Continue.

DTS opens the Request Reservations window displaying the Traveler Summary, Reservation Preferences, Trip Details, and Points of Contact sections (Figure 5-23).
1. Scroll down the page to view the information.
2. Under *Point of Contact Information* section, DTS displays the POC *Name*, *Phone number*, *Email Address*, *TMC Group ID*, and *Additional Comments* fields (Figure 5-23).

3. Verify the *Point of Contact Information* section is valid.

4. DTS enables email delivery to the TMC before signing the group authorization. Select *Send Request and Continue* (Figure 5-23).

5. A *DTS Request for Group Travel Reservations* email (with group travel preferences) generates to the TMC. The POC receives a copy of the DTS email.

6. Once DTS sends the email, the group authorization updates with a *CTO Email Sent* stamp.

For more information on the *DTS Request for Group Travel Reservations* email, see the *DTA Manual, Appendix E*.

For more information on DTS reservations, see the *DTS Guide 2: Authorizations*. 
2.6 Expenses Module

The Group Authorization Enter Travel Expenses page functions the same as the standard authorization containing Uploads, Reservation Expenses, Other Expenses, and Substantiating Documents sections (Figure 5-24).

![Figure 5-24: Enter Travel Expenses Screen](image)

1. Enter all known reimbursable expenses and travel allowance estimates, just as you would for any other authorization. Example: The group contains three travelers. Each traveler will incur a baggage fee of $25, so you will enter a single baggage expense of $75.00.
2. Once you complete the Expenses sections, select Continue.

Note: Certain cost information (e.g., driving distance to the trip starting point) is different for each traveler. For those, you’ll have to estimate the totals to get a good “should cost” for the overall trip. The travelers can update the “should costs” on their individual authorizations.

For more details on DTS Expenses sections, see DTS Guide 2: Authorizations.

2.7 Per Diem Module

The Review Group Per Diem Amounts screen displays daily lodging and M&IE details. The per diem page displays the Total Lodging Cost and Total M&IE Allowed for all travelers within the group authorization. The group/ungroup action allows you to expand or collapse data and flags the first last and last day travel allowances. When you finish reviewing the information, select Continue.

2.8 Accounting > Line of Accounting (LOA)

The Review Accounting page provides the options for adding a LOA to the group authorization. You can select From [organization], Shared LOA, or Cross Org LOA options to add the LOA or your organization may elect to have a LOA appear automatically on your document. Make sure all expenses allocate to the LOA label. When you complete the LOA section, select Continue.

For more information on adding Lines of Accounting and allocating expenses, see DTS Guide 2: Authorizations.

2.9 Accounting > Partial Payments

On a group authorization, DTS will only request scheduled partial payments (SPPs) for the Primary Traveler. The TDY must 46 days or more to schedule a SPP. Other travelers who wish to request SPPs must wait until the group document locks (see Section 3.3). At that point, each traveler can update their individual authorization to request SPPs.

2.10 Accounting > Advances

Group authorizations do not permit requests for advances.
2.11 Cost Distribution

The **Distribute Costs** window lists all costs. There are two sections: *Undistributed Expenses* and *Distributed Expenses*. The **Distribution Costs** page lets you **Distribute** or divide those costs amongst all group travelers as appropriate (Figure 5-25).

![Figure 5-25: Distribute Costs Screen](image)

1. Select **Distribute** (Figure 5-25, Indicator 1) by the expense item.

2. A **Distribute Costs** screen opens (Figure 5-26).

3. Select the **Distribution Method**: *Evenly*, *By Amount*, or *By Percent* (Figure 5-26, Indicator 1). **Note**: Make sure to dispense fully all costs.
4. Checkmark the box by the individual traveler or checkmark the box next to Traveler to select all travelers (Figure 5-26, Indicator 2).

5. Select Distribute (Figure 5-26, Indicator 3).

6. The expense item moves from the Undistributed Expenses section to the Distributed Expenses section of the page.

7. Continue distributing costs for each expense item by your preferred method.

8. Once you go through all the costs, DTS displays an information icon notifying you of the expense distribution status (Figure 5-27, Indicator 1). The reset and edit distribution links appear next to each expense item (Figure 5-27, Indicator 2).
9. Select **Continue** to advance to **Review Profile** and then select **Continue**, or go directly from the **Progress Bar** to select **Review Group Authorization**.

### 2.12 Review > Review Group Authorization

Before signing the group authorization, you should always verify it for completeness to help prevent the Authorizing Official (AO) from returning the document causing processing delays.

The **Review Trip Group Authorization** screen (Figure 5-28) presents all travel details. From this page, you can:

- **Add Comments to the AO** (Figure 5-28, Indicator 1) or use the short cut link **Go to [Document Sections]** (Figure 5-28, Indicator 2) to make changes.

- **Expand Show Details** for reservation preferences (Figure 28, Indicator 3).
- View the **Reservation Request** confirmation of TMC email sent (Figure 5-28, Indicator 4).

- Verify the **Expenses, Per Diem, Accounting Codes, Group Cost Distributions**, and **Estimated Travel Costs**.

---

**Figure 5-28: Review Trip Group Authorization Screen**

---

**Figure 5-28: Review Trip Group Authorization Screen (continued)**
Figure 5-28: Review Trip Group Authorization Screen (continued)
If the group document requires no changes, select Continue.
2.13 Review > Other Auths and PreAudit > Sign and Submit

The Other Auths and Pre Audits page identifies any expense requiring justification, an expense exceeding a threshold as well as providing advisories. Just like with any authorization, you must provide comments and justifications before moving forward. When you complete this step, select Continue.

The Digital Signature window allows you to sign the group authorization. Follow the signing process, select Submit Completed Document to send your group authorization for approval and routing through the system. Once signing is complete, to exit the window, select Go To Homepage at the bottom of the screen.

For more information on Other Auths and Pre Audits and the Sign and Submit process, see DTS Guide 2: Authorizations.

Key Notes:

1) During the signing process of the group authorization, if you have not yet emailed your reservation requests to the TMC, a pop-up message displays prompting you to send the email (Figure 5-29).

![Figure 5-29: Confirm Submit (TMC email) Screen](image)
a. Select **Send and Submit** to transmit the TMC email for reservation support providing:

- Contact information (**Name, Phone Number** and **Email Address**) for the group POC
- TMC Group ID
- Additional Comments to the TMC (add information)

b. DTS updates the **Reservation Request** portion of the document recording **Email sent to the TMC** with date and time action.

2) Some situations do not allow DTS to send the email (e.g., when the group authorization still contains unidentified travelers) (Figure 5-30). You must return to the **Add Group Travelers** page, **Manage Travelers** to correct the traveler listing before you can send the email and then proceed with signing the trip.

![Figure 5-30: Undefined Traveler Warning Message](image)

3) Do not digitally sign the group authorization until you have updated DTS with all reservation costs and ensure all expenses are properly distributed.

4) Attach the TMC’s response and any other supporting documentation to the group authorization on the **Enter Travel Expenses** screen, in the **Substantiating Documents** area.

5) Follow your local business rules for providing the travelers’ TSA and GTCC data to the TMC.
3 Group Authorization Tools

Group Authorizations have the same options of printing, adjusting, and amending (depending on the document status) as a regular authorization. There are two additional tools, which are View Group Manifest and the Lock Group Auth (Figure 5-31). These features only appear in the Options listing for approved documents.

Once the AO approves the group authorization, DTS separates the single group document into individual travel authorizations. At this point, the individual trips are view only and the status will not change, until the group authorization locks.

A helpful tracking reference is within the individual authorizations, DTS provides the primary traveler’s name, document and TA Number under Comments to the Approving Official.

Note: If you do not have group access to all the travelers named in the group authorization, the view, edit, amend, and print links will not be available.

![Figure 5-31: Group Authorizations Screen](image)

3.1 Print a Traveler Manifest

A manifest is a list of group travelers with approved orders. You can easily print a traveler manifest for the travelers collectively or you can print the authorizations individually, if desired. Begin the process from the DTS Dashboard locating the Group Authorization.

2. The Group Manifest window opens (Figure 5-32). The primary document or
group authorization appears at the top of the page displaying departure date, TA Number, and number of travelers in the group document. On the right side of the document row, the Lock and View actions appear. Additionally, the Options icon allows Print Group Authorization, Print Group Manifest, Manage Adjustments, and Amend Group Authorization.

3. The Traveler Authorizations (view only) section displays the list of group travelers and their documents. The Primary Traveler is marked with a star. The authorizations contain unique TA Numbers (Travel Authorization Numbers) although the first few digits maybe similar. Options permits View or Print Authorization. Likewise, the Print Manifest link is available.

![Group Manifest Screen](image)

**Figure 5-32: Group Manifest Screen**

4. Select Print Manifest (Figure 5-32). A Print Manifest screen (Figure 5-33) opens containing the travelers with check marks by their names. You can uncheck to exclude a traveler from the manifest or leave all the checkmarks in place to ensure all travelers are included. Select Print Manifest.
5. A loading message appears and then the manifest displays (Figure 5-34).
3.2 Remove and Release a Traveler from a Group Authorization

Removing or releasing a traveler from the group authorization is similar, but occurs in different areas of the system, and when you can actually perform the actions depends upon the document status.

Removing means that the traveler will not travel with the group. Before AO approval, you can easily remove a traveler from the group authorization by editing the document.

- Log into DTS and search for the group authorization.
- Select Edit. DTS opens on the Review Trip Group Authorization page.
- Select the Go To (link) Manage Travelers.
- The Add Group Travelers screen appears.
- Check the box next to the traveler you need to remove (Figure 5-35, Indicator 1).
- A banner appears at the bottom of the page. Select Remove (Figure 5-35, Indicator 2).

![Figure 5-35: Remove Banner Screen]
• A Remove Traveler message displays (Figure 5-36).

![Figure 5-36: Remove Traveler (confirmation) Screen](image)

• Select Confirm.
• DTS removes the traveler from the group authorization updating the details on the Add Group Travelers page.

**Note:** DTS does not create an individual authorization for removed travelers.

Releasing a traveler from a group authorization means the person isn’t traveling with the group and action is required. After AO approval, but prior to locking the group authorization, you can release the traveler from the group authorization following these steps.

• Log into DTS and search for the group authorization.
• Select Options and then select View Group Manifest (Figure 5-37).

![Figure 5-37: Group Authorization Options Screen](image)

• The Group Manifest screen displays (Figure 5-38).
• Locate the traveler that is no longer traveling. Select **Options** (Figure 5-38, Indicator 1).

![Figure 5-38: Traveler Authorization Options Screen](image)

• Select **Release Traveler**.
• A **Release Traveler** window opens (Figure 5-39). Select **Release Traveler**.

![Figure 5-39: Release Traveler Screen](image)

• The **Group Manifest** updates and DTS no longer displays the traveler in the listing (Figure 5-40).

**Note:** The group authorization will reflect the released traveler information at this point. However, no changes made to the group authorization will transfer over to the released traveler’s individual authorization, as it is disengaged.
Once released, the traveler can select **Cancel Trip** or **Create Amendment** for the individual authorization (Figure 5-41). The traveler should work with the TMC to cancel all reservations. The traveler should cancel any offline reservations. If expenses incurred, such as a TMC fee, then the traveler should process a voucher for reimbursement of the incurred expense.
3.3 Lock a Group Authorization

“Locking” is an important function for a group authorization and does not occur in any other DTS document type. You should be aware that locking is a one-time action, can happen manually or automatically, and once the group authorization locks, then the document stays locked. It is vital to understand how the lock function effects document processing, as this drives your decision on “when to lock” the group authorization.

Unlocked group authorization:

- The Primary Traveler or someone with group access can edit it.
- Changes to the group authorization, including cancellations affect all travelers’ individual authorizations.
- Group travelers may view, but not edit their individual authorization.
- Group travelers may not request SPPs.
- Group travelers may not create vouchers from their individual authorization.

Locked group authorization:

- It becomes permanently view-only. You can never edit it again.
- Changes made to an individual authorization do not show up on any other individual authorizations. If there is a change affecting all group travelers, then modify each individual document.
- Group travelers may edit their individual authorization.
- Group travelers may request SPPs, unless the trip has ended.
- Group travelers may create vouchers from their individual authorization.

There are two ways to lock the group authorization. Here is how the locking occurs:

1. **Manually:** You can manually lock the group authorization any time after the AO approves using the steps below:

   - From the **Group Authorizations** document-listing screen, select **Options**, **Lock Group Auth** (Figure 5-42).
A warning message displays (Figure 5-43). **Note:** Although the message wording refers to unlocking the individual authorizations, the system action is **Lock Group Auth**.

Select **Lock Group**.

DTS updates the group authorization with a **lock** icon displaying right beside the TA Number (Figure 5-44).

DTS sends an email to the **Primary Traveler** of the locking action.
• The group authorization changes to a view only document.

2. **Automatically:** DTS automatically locks the approved group authorization three days after the trip end date, if no one manually locked the document.

### 3.4 Amend a Group Authorization

You can amend a group authorization *prior to* document locking, but not after it locks. The process for amending a group authorization is the same as a regular authorization, except you can’t:

- Change the routing list.
- Add travelers to an amended group authorization.
- Use the Reservation module after you create the amendment. Instead, contact the TO or TMC to make any necessary reservation changes. Update reservation cost manually in DTS.

You can:

- Add or remove expenses within the *Other Expenses* section.
- Attach *Substantiating Documents* as needed.
- After finalizing expenses, be sure to distribute fully all costs.
- Justify system flags and sign the amended group authorization for AO approval.

**Note:** If you make itinerary or reservation changes, you should always communicate the new information to all group travelers.

### 3.5 Amend an Individual Authorization

The process for amending an individual authorization is identical to the process for amending a standard authorization, with a couple exceptions.

- You can’t amend the trip until the approved group authorization locks allowing the amend link availability.
- You can’t amend the trip until the traveler is released from the group authorization when travel is no longer required.

When amending the individual authorization:

1. You should provide comments explaining the purpose for the amendment.
2. Work with the TMC off line for any new reservations.
3. Update reservations costs and attach supporting documentation as needed.
4. Ensure proper expense LOA allocation.
5. Communicate reservations changes with the primary traveler and AO for re-approval.

3.6 Cancel a Group Authorization

Cancellation functions the same way as with a standard authorization, with one exception. If a Routing Official applies the CANCELLED stamp to the group authorization before it locks, all individual authorizations cancel automatically. Once the group authorization locks, each group member must cancel his or her individual authorization. The traveler follows up with the TMC to verify all reservations successfully cancel.
